

I [REDACTED] a Kenyan
27 years old. I started working at
my Sponsors House whose name is Mr. [REDACTED]
[REDACTED] on 5th of May 2021 at
Shaurimoyo Estate.

The first day I entered the house they
took everything I had which are my
bags and my mobile phone. I started
serving the first day I entered the house
the family had 8 members where
I was the only worker in the house. The
house was very big alone. My sponsor
was a police officer he used to beat me
daily. Every time he comes home he comes
to beat me. Whenever their babies mess up
with anything in the house they could
beat me without even giving me time
to explain what happened.
He used to punish me by locking me inside
a room that has no AC whenever they
go out. It reached a time where I couldn't
be able to walk by my self due to

They injured my leg and my back by beating me and stepping on my back. Other scars he could use her wires ~~the~~ highheel shoe, a sweeping broom and a fire lighter. They used a fire lighter to burn me on my hands, chest and my neck. And the broom they used it on beating me mostly on my head and other parts of my body until it breaks. And ~~a fire~~ ^{highheel shoes} ~~lighter~~ was used to beat me on my fingers and my toes until he hit it on my neck where it reached a point that I couldn't walk nor stand.

I continue suffering until one night when they told me that their Philippine Kanda-dama who was there before me was coming. The mother of the house wanted us to work the two of us but the father refused and decided to transfer me to her female friend. That day at around nine at night he took ~~without~~ anything I had and threatened me that I

should not speak anything that I had
been going through including not been
given my 3 months salary.
When we met this madam she asked him
some questions about me but he lied
to her by telling her that according to
~~the~~ injuries that I had: he said that
I slid on the floor when morning
and then before we reached to this mad
am on the way he beat me and
threatened me that if I try to say
anything that I had been going through
he will come for me and kill me
since he had my documents.

In their friendly house I stayed there for only
one day and then she told me that
I [REDACTED] since my house is small I'll take
you to my friend's house and then
when I shift to the bigger house I'll
come for you. I accepted and I was taken
to the friend of their friend where I stayed
for some days.

While in his house I reached a point that I

couldn't walk ~~not~~ nor, stand up straight
by my self. This madam was very
nice due to the way she treated me
that's when I saw that she can help
me and decided to tell her everything
that I had been through. She sympathi-
sed with me and gave me her phone
to make calls to my people.

The following morning I couldn't wake up
so she asked me if I have any number
of agents and I told her yes so she
called her. She called my Kenyan agents
and told her my situation where she
requested for the pictures of my documents
where this agent sent a photo of my passport
which she used it to take me to the Hamad
general hospital.

Reaching ~~general~~ Hamad general hospital I
was put on the wheelchair because I couldn't
walk by my self. When the nurses saw
me at the administration they refused because
they told us to involve police because the
way I was physically.

Immediately He called social workers and then I was told to write a statement. From there I ~~went~~ was admitted and treated through X-rays from here I was admitted for a day. The following day I was discharged by the people from the embassy of Kenya through the social workers.

I was taken to the Kenyan embassy where I stayed while attending my appointments at Hamad general hospital and Bone and Joint center clinic. I continued with the appointments until November 21st 2021 when I had an operation on my right leg and I was given ~~a~~ back supporter for my back since the doctor said I can't go undergo an operation on my back at my age. Back operation seemed to be delicate.

After operation I stayed for 3 months and then I was transferred to Bin Omar for physiotherapy. From here I was discharged and then referred again back to Bone and Joint

Bone and joint centre clinic where I attended
my last appointment on 9th May 2022.
On that day doctor said that I must
undergo another operation for the removal
of the metal that was put inside my
leg at the ankle joint area.

On 27th/04/2022 I received a phone call
from the embassy of Kenya saying that
my sponsor [REDACTED] had

visited there and took my salary a
three months salary 3600 QR. and then
I asked how am I going to be paid
these other days that I have not been
working.

When asked Mr. [REDACTED] the ambassador he
told me that I will be compensated by
the assault case.

When I asked him about the assault
case he gave me the number of the
lawyer. [REDACTED]

[REDACTED] and gave me the
case number - [REDACTED] for the appeal

1. [REDACTED]

When I was still at the embassy I was taken to the office of public prosecution where I met the madam who was the friend of my sponsor the one that I was given to. There I was even requested to say the approximate amount I would like to be given. and I said 150,000 QR and then they told me that amount was small according to the injuries I had and it was added up to 250,000 QR.

From there I was taken to the Forensic Hospital where every injury was measured and they confirmed every injury I had.

On 20th May 2022 I spoke to my lawyer. He told me that wanted to come here and see the documents I have. When he came he told me that my case has no witnesses and also it has no evidence where I told him that I myself am an evidence.

nce. according to the injuries I have
and scars.

Before I handed over the case I request
ed the embassy to let me meet my
lawyer but they didn't because I want
ed to know which evidence is he using
to represent me on court because they
told me the case was on going of
which it wasn't.

I handed over this case to the lawyer
on 09/12/2021 and it has a duration
of one year. which means by december
this year the case must be over by
the grace of God.

Since then my case has not been progressing
the lawyer never took it to be serious
since he never gave me updates about
the case. Due to this I decided to hand
over the case to the other lawyer.
I proceeded and took the power of attor-
ney where I was given another certificate
for my new lawyer. I took it on
22/06/2022.
